

# GOOD TO GROW

Different things in Quinn's life help her to grow. It's the same for plants, trees and flowers! Thinking about what helps you in your life and write it in below

Rain helps plants and flowers to grow. Who helps you grow and boost you up?

Aren't plants lovely?  
What things do you like about yourself?

The roots of a plant keep it strong and supported in the ground. Who supports you?

BEAR
